DOMESTIC. Good Words for California.

Washington, August 24th.—The G. A. R. elegates from Washington returned last night, and were given a reunion reception.

They were met at the depot by a large number of comrades and friends, who escorted them to Grand Army Hall. Had any Californians been in the hall the would, if the inhabitants of that great State have modesty left, have blushed to the tip of their ears, while listening to the praises which were showered upon them of their hospitality and their State by the eturning delegates, and the veterans were eloquent in expressing their admiration, and made every one who had staid at home ell badly because he had not been able to

Philadelphia. PHILADELPHIA, August 24th.—The sensa tion of the day here are the charges pub-

making, and a banquet wound up the exer-

lished for a week past by the Times against William B. Smith, Mayor of the city, in which the latter is openly accused of being a thief and embezzler to the amount of many thousand dollars. The only reply the Mayor has made to the very grave charges is that he has not money enough to engage in a lawsuit. The *Times*, in a scathing editorial this morning, says that Mayor Smith yesterday paid into the city treasury an additional sum of \$2,300, being he third payment forced from him within he last week by the exposure of his lawss retention of the city moneys until the th of this month. He paid into the easury only the sum of \$250 during the ent year, which payment was made on the 13th of February, for the sale of a cow Mayor Smith has put himself in the atti-tude of a criminal Chief Magistrate, openly fying the law, and insolently affronti an intelligent and honest public sentime rectors. Washington, August 24th.—An official telegram has been received from Minister Jackson, confirming the press reports of Cutting's release, but giving no particulars. The release will not affect Sedgwick's mission, which is to ENCHO CE BUTTER AND CHEESE A learn an lacts in the cancern itself ment does not at present concern itself with the question of damages to Cutting, negotiations for a change of Mexican laws, in so far as they are held to give the right to try Americans for acts committed within American territory. As it appears at present, the only act for which this Government can demand redress is for that of kidnaping Rasures when he was domiciled upon this side of the border line. n no event can it be expected that Mon-lragon will be surrendered for trial to the American authorities, the special treaty ntervening to warrant a refusal on Mexico's

New York Street-car Trouble.

NEW YORK, August 24th.-Eleven hundred employes of the Broadway and Seventh avenue surface road were paid off today. Superintendent Newell said that since the men refused to accept the terms offered he will have nothing more to do with them. He has advertised for new lence. It is asserted that the company had violated their agreement, which was to make each driver and conductor run only five trips a day. The new schedule would make them run six trips a day, or about sixteen hours' work. A meeting of members of the Local Assembly Car Employes will be held to-night. The employes of the Belt line left work at 4 o'clock A. M. They complain of discharges on frivolous work with reduction in wages. The employes of three roads-known as the Fortysecond street lines-complain of a new time-table issued to-day. They claim that they will have to work ten hours daily without eating or rest. .

She persisted in the declaration if her innocence and utter ignorance of

More than this, they are a capable people for self-government The great Powers, however, have maintained a steadfast policy of interference with the Slavic States. FORT BRAGG (Cal.), August 22, 1886. EDS. RECORD-UNION: I believe your readers will be interested in the material growth being experienced by this section of Mendocino county. We are living in active coast counties; and property is already taking on better prices in such anticipation. We are to have a new hotel here, which will be the best in the locality. It is being built by S. W. McMullen, and will cost, when completed, about \$18,000. It is sent a fine appearance. The new railroad is expected to run through Sherwood val-ley, and if so, it is more than probable that a branch road, twelve miles long, will be constructed by the lumber company of this here with water transportation. Cheap and rapid transportation is of the u most importance to those who are both producers and consumers. It cheapens all that he buys and enhances the price of all he produces. The "LANGFORD COLONY" is most advantage ously situated in this respect. This gives the cheap est freight and passenger rates for the distance on this Coast. The markets for all kinds of pro ducts are good. The troops in Eastern Roumelia and at Shumla disapprove of the deposition. Two thousand people, who openly favor the restoration of Alexander, met yesterday in front of the Russian consulate, in here, 25@27c.
